

HC ... R3 Series (GE..KTTB/GE..KPPB-3)

Eccentric collar lock with R3 seals, universal regreaseable acc. to common european and japanese standards, lithium based NLGI 2/3 grease. Temperature range -30°C to +110°C

Bearing No.	Dimensions (mm)												Basic load rating (N)		Weight (kg)

This seal type consists of a metal cap and synthetic rubber seals, which are baked together to form a single seal. The lip layers are of triple construction and outside matters, such as dust, water, etc. are shut out. This sealing system shows its outstanding function under bad conditions.

The larger grease reservoirs provide longer relubrication intervals.

Operating temperatures are from -20°C to +120°C.
